06/20/2017		General Motors	Manufacturer Safety recall issued - NHTSA #17V061 - Recall #N162080281 - 2006-2010 MY PONTIAC SOLSTICE, SATURN SKY - - PASSENGER PRESENCE SYSTEM (PPS) - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. - Learn more about this recall
<p>Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 20062010 model year Pontiac Solstice and 20072010 Saturn SKY vehicles. To satisfy FMVSS 208 airbag suppression requirements, these vehicles are equipped with a passenger airbag suppression system (PPS) that is designed to determine whether the passenger seat is occupied by a child and whether the front passenger airbag should be suppressed during a crash. The PPS system uses a flexible sensor mat inside the passenger seat. Occupant pressure on the seat in the same location can, over time, bend and damage the sensors printed conductor. In severe cases, this damage can cause an open circuit in the sensor. While the sensor circuit is open, the PPS module will indicate to the vehicles sensing and diagnostic module (SDM) that a fault exists in the PPS system, and the SDM will by default suppress the front passenger airbag during a crash.</p> <p>If an active fault exists in the PPS system and a crash occurs, the SDM will not deploy the front passenger airbag. If an adult is occupying the passenger seat, the suppression of the front passenger airbag could increase the risk of injury to the passenger.</p> <p>Remedy: Dealers will inspect the PPS sensor mat for damage. If the mat is undamaged and functioning correctly, dealers will add a reinforcement strip to the sensor mat free of charge. If the mat is damaged, dealers will install a new PPS mat with the reinforcement strip free of charge.</p>

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
